The co-authors of the model of the design concept of the winning design concept of the national side of the Republic of Croatia on 1 euro circulation coin featuring the motif of the marten with the Croatian chequerboard in the background are:

Image no. 3 David Čemeljić

David Čemeljić, born on 27 February 2001 in Zadar. He graduated secondary school *V. prirodoslovno-matematička gimnazija* in Zagreb and is a full-time third-year student of the undergraduate studies of computer sciences at the Faculty of Electrical Engineering and Computing in Zagreb. In primary school he took an interest in robotics and participated in numerous competitions. In his free time during secondary school, he started participating in and developing individual projects, concentrating on video games and 3D modelling.

Image no. 4 Fran Zekan

Fran Zekan, born on 1 February in Zagreb. He graduated secondary school *V. prirodoslovno-matematička gimnazija* in Zagreb and is a third-year student of the undergraduate studies of computer sciences at the Faculty of Electrical Engineering and Computing in Zagreb. In secondary school he started the *Mudus* start-up with his colleagues, which developed a smartboard game, for which he won the *30 under 30* Award of the tech magazine *Vidi* in 2018. In addition to his studies, he works in the development of curricula and tools for STEM classes, employed in many schools across Croatia and the US. In his free time, he enjoys developing various electronic devices and 3D printing.
