

MANNER OF PACKAGING AND LABELLING COINS

Coins are packed in a box made of solid cardboard measuring 80 x 60 x 60 cm, which is placed on a half Euro pallet and reinforced on four sides with four wooden slats (hereinafter: box). Each box has a label indicating the type and quantity of coins.

Coins inside the box are packed in three types of bags:

- plastic bags
- cloth (jute) bags
- large bag with loose coins inside (Q bags)

The distribution of packaging of individual coin denominations by bag types is shown in Table 1 Manner of coin packaging.

The average weight of an empty box with bag (hereinafter: packaging) is 12 kilos.

The average total weight of a box of coins with packaging is specified in Table 1 Average box weight by denomination.

Table 1 Average box weight by denomination

DENOMINATION	25 KUN A	5 KUN A	2 KUN A	1 KUN A	50 LIP A	20 LIP A	10 LIP A	5 LIP A	2 LIP A	1 LIP A
AVERAGE BOX WEIGHT [kg]	500	400	600	500	400	400	500	500	200	100

The distribution of individual coin denomination packaging by bag types is shown in Table 2 Manner of coin packaging.

Table 2 Manner of coin packaging

DENOMINATION	PACKAGING	NUMBER OF BOXES	NUMBER OF BAGS IN THE BOX	TOTAL NUMBER OF BAGS	TOTAL NUMBER OF PIECES
25 KUNA	large bag - destroyed	24	loose	24	909,900
